

Remington®

THE WORLD'S PREMIER SOURCE FOR FIREARMS AND AMMUNITION.

For 194 years, Remington® and the American sportsman have seen it all together. And because no one has been a part of the great hunting and shooting tradition in this country longer, no one works harder to anticipate your needs and provide the innovation you demand. This year's crop of new products is testament to this. Stainless steel goes black on our new Model 700™ XCR II featuring the patented TriNyte® Corrosion Control System, your families and homes are safer with the advent of Ultimate Home Defense ammunition, and the bone-busting 450 Bushmaster comes to our famous R-15 modular rifle. There's plenty more, including a wide range of new caliber offerings and configurations, as well as additions to the armor-plated Model 887™ Nitro Mag lineup. With all there is to see in the pages to come, one thing is certain: One name stands above them all in advancing our proud tradition. Remington.

TABLE OF CONTENTS

New Products	1-9
Shotguns	10-19
Rifles	20-51

Valued Partners	94-95
Ballistics	96-98
Specifications	99-109

CUTLERY

NEW

Manufactured under license from the Boy Scouts of America®. All rights reserved.

2010 BOY SCOUTS OF AMERICA® KNIFE.
 Crafted from the original RS4233 pattern created in 1924 with tooling from the original Remington Bridgeport, Conn. Factory. (Page 79)

NEW

1911 MULTI-TOOL.
 Protected in a black oxide finish, it gets the job done with an array of tools including a bit driver system with 5 double-sided bits and dual bushing wrench/plier head. (Page 86)

NEW

HERITAGE SERIES KNIVES.
 Available in a Delrin Stag handle for 2010, this knife boasts the Remington Arms Crest Shield, found on the front bolster of each Heritage Series Knife. A tradition dating back to the 1800s. (Page 84)

NEW

2010 COPPERHEAD BULLET® KNIFE "DOUBLE STRIKE."
 The tradition of the Bullet Knife continues with a R2253 Copperhead pattern and a mahogany jigged bone with bullet shield. Also available in a Damascus Blade (limited offering). (Page 79)

NEW

PREMIER® TACTICAL SHEATHS. Designed to fit fixed-blade knives of many different sizes, these sheaths are made of the best quality Cordura® material to withstand rigorous use. Available in Black, Tan and OD Green. (Page 81)

FIREARM ACCESSORIES

NEW

HIGH INTEGRAL SCOPE MOUNTS.
 Eliminating the mechanical joint between a separate base and ring, the integral design weighs less than steel mounts and is 50% stronger than aluminum. Medium and high mounts are available and are guaranteed to fit all Remington Model 700's. (Page 91)

NEW

GUN SOCK. Excellent for long term storages; 52" long to fit most all long guns and the scope; silicon treated polyester fabric protects from dust and scratches and rust. (Page 90)

NEW

TACTICAL CHOKE TUBE. Designed for optimum performance and recoil reduction, it also aids in reducing muzzle rise for consistent shot placement. (Page 93)

NEW

R-15 MAGAZINE. Designed for the demands of the Model R-15, this magazine is available in Black. (Page 93)

NEW

MODEL 870™ MAGAZINE EXTENSION KIT.
 Add 2 or 3 extra shots to your shotgun's capacity. Available in a Blued or Parkerized finish. (Page 93)

HD ULTIMATE HOME DEFENSE

**DON'T TRUST YOUR
FAMILY'S SAFETY TO
ANYTHING ELSE.**

NEW

PISTOL & REVOLVER. Based on the same platform trusted by law-enforcement professionals to protect the American way of life is now available to defend your family and home. Loaded with our high-performance Brass Jacket Hollow Point (BJHP), these new rounds deliver massive expansion and deep penetration for ultimate stopping power. Premium nickel-plated cases resist corrosion and cycle dependably through extended storage. Available in the most popular pistol and revolver calibers.

† Recoilless HD® +PP in the case headspace in leader to higher pressure. Can only be used as a backup for this cartridge and is not recommended by Remington-Union Metallic Cartridge Co. for use in any other firearm. †† Best Ballistic Length &M® = Brass Jacketed Hollow Point

SHOTGUN. Featuring Remington Heavy Density (HD) Tungsten-Bronze-Iron pellets that are heavier than standard lead, these new rounds deliver dense, devastating patterns and massive terminal knockdown when the stakes are at their highest. Short-range patterns in smoothbore barrels are tight and extremely devastating for one-shot confidence. Choose from two hard-hitting 12-gauge loads – BB for highest energy and Duplex for most pellets on target.

Our 410 load packs four lead 00 buckshot pellets to maximize effectiveness of the Taurus® Judge® handgun.

Three devastating shots at 15 feet with our new 2 1/2" 410 HD Ultimate Home Defense shotshell featuring four 00 buckshot pellets each. Test fired through Taurus® Judge® revolver.

DISINTEGRATOR® CTF™ PISTOL & REVOLVER

PULVERIZING ALL PREVIOUS STANDARDS FOR EXCELLENCE IN FRANGIBLE TRAINING AMMUNITION.

Truly the ultimate choice for all lead-free training scenarios. Utilizing jacketless, copper tin frangible bullets, Disintegrator® CTF™ delivers complete breakup at distances as close as 5 ft. with no splashback, no jacket fragments and absolutely no lead residue. Disintegrator CTF bullets are formed from powder using a compaction and sintering process that eliminates the need for a jacket to house the bullet core. When these completely frangible bullets strike a barrier, they're instantly reduced to dust-sized particles, dramatically reducing hazard to bystanders. Highly frangible design prolongs the life of target traps and backstops, and our Heavy Metal Free (HMF) primer offers the best shelf life available with a non-toxic primer.

JACKETLESS BULLETS BREAK-UP INSTANTLY AND COMPLETELY

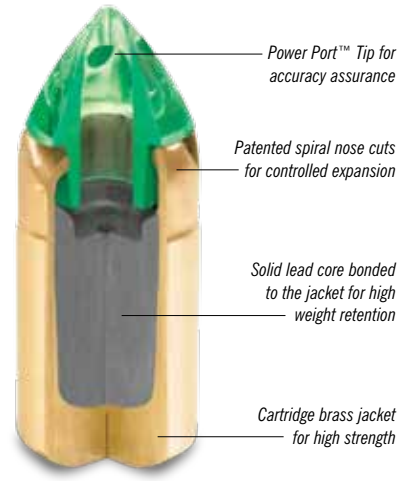

- No splashback
- No Jacket fragments
- No Lead residue

PREMIER® ACCUTIP 450 BUSHMASTER

THE "BIG THUMPER" GETS A BIG DOSE OF AERODYNAMICS AND DEVASTATING EXPANSION. In honor of the 450 Bushmaster's debut on our supremely accurate R-15 platform, we're loading it with perhaps the most accurate .45-caliber bullet ever devised. Featuring our Power Port™ tip, this 260-grain AccuTip bonded projectile delivers exceptional flight characteristics for ultimate downrange precision and sustained energy. Its bonded construction, high-strength cartridge-brass jacket and spiral nose cuts combine to drive huge, uniform mushrooms through the toughest game with ease.

Power Port™ Tip for accuracy assurance

Patented spiral nose cuts for controlled expansion

Solid lead core bonded to the jacket for high weight retention

Cartridge brass jacket for high strength

PREMIER® NITRO SPORTING CLAYS

Smoke targets and all competitors with the finest sporting clays load in the world today. The Premier® Nitro performance that's dominated trap and skeet competitions for years is now available in high-velocity, 1-oz. loads specially formulated for the sporting clays enthusiast. Combining mild recoil with target-grinding pattern consistency, the new Premier Nitro Sporting Clays loads were created in answer to requests from NSCA All American Team Captain Wendell Cherry. They're extensively field tested and proven to crush the long birds with an astounding 1,350 fps. muzzle velocity in your choice of #7 1/2 or #8 shot. And guaranteed to take your game to new heights and lengths in 2010.
