## The Ultimate Cat Control System

**SSSCAT** is an automated spray system that combines Multivet's spray technology and a motion detector to protect indoor areas and objects from cats within a radius of 3 feet/one meter.

### How it Works:

The device detects a cat's movement as it approaches an off-limit zone, then releases a brisk harmless spray. The cat will automatically turn away. Once the cat makes the association with the spray, he will stay away.

Uses 4 AAA batteries (not included)

## The harmless and effective way to set boundaries for your cat.

Stops cats from going into plants, scratching furniture, jumping on counters... with a spray!

**Product Code:**  
19001

**UPC Code:**  
6 24834 19001 2

**Cases of 6**

### FEATURES AND BENEFITS:

- Interactive
- Easy to use
- Requires no training
- Painless, stainless, and scentless
- Keeps cats from off-limit areas
- Safe for humans, animals, and the environment

### THE KIT INCLUDES:

- Adjustable motion detector
- Adjustable nozzle for spray direction
- Can of harmless spray
- Instruction guide
